Board of School Trustees
McKinney Independent School District

McKinney, Texas 75069

Members of the Board:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of McKinney Independent School District, McKinney Texas (the District) as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's administrators. Our responsibility is to express an opinion on them based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in
, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, each major fund, and the aggregate remaining fund information of McKinney Independent School District as of June 30, 2009, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis on pages 3 through 11 and the budgetary comparison information on page 46 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of

In accordance with _____, we have also issued our report dated September 16, 2009 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with _____ and should be read in conjunction with this report in considering the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, _____, and is not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and the T.E.A. required schedules listed in the table of contents are presented for additional analysis and are not a required part of the basic financial stat

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the McKinney Independent School District annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2009. Please read in conjunction with the District's financial statements, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Assets (Exhibit A-1) and the Statement of Activities (Exhibit B-1). These statements provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (Exhibits C-1 and C-3) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For

General Fund Budgetary Highlights

During the course of the fiscal year, the District reviews and revises its budget on a monthly basis in accordance with Texas Education Agency Financial Accountability System Resource Guide standards. General Fund revenues for the fiscal year ended June 30, 2009 exceeded budget by \$875,398 due primarily to actual state revenues exceeding projections. Total expenditures for the fiscal year were \$3,422,804 under budget.

At the end of fiscal year 2008, the ending general fund balance of \$53.2 million represented 30.5% of the

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Net taxable appraised value used for the 2010 budget preparation has decreased approximately \$8.0 million, which represents a decrease of less than 1.0% from 2009 values. New construction for 2010 amounts to approximately \$235 million, with a net of \$35 million lost to new exemptions.
- A comparison of budgeted general operating fund spending per pupil (based on fall enrollment) in the 2008-09 fiscal year of \$7,445 to the budgeted 2009-10 spending per pupil of \$7,447 represents a virtually unchanged spending allocation.
- The District's 2010 refined average daily attendance is expected to be approximately 22,668 which represents a 3.0% increase over 2009.

These indicators were taken into account when adopting the general fund budget for 2010. Revenues available for appropriation in the general fund budget are \$174,809,967 an increase of 5.1% over the final 2009 budget of \$166,300,371. The increase in available revenue is generated primarily by an increase in state aid for enrollment growth and teacher salary increase.

The District's 2010 tax rate is \$1.54, an increase of \$.023 all of which relates to the interest and sinking fund tax rate. As noted above, net taxable appraised value has decreased slightly creating a decrease in expected tax collections in the general fund. The net den. NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

McKinney Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in _____ of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's _____ (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. Reporting Entity

The Board is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these

D. Fund Accounting

The District reports the following major governmental funds:

1. **General Fund** - The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Debt Service Fund** - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
3. **Capital Projects Fund** - The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Additionally, the District reports the following fund types(s):

Governmental Funds:

1. **Special Revenue Funds** - The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Fiduciary Funds:

2. **Private Purpose Trust Fund** - The District accounts for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District's Private Purpose Trust Funds are for scholarships.
3. **Agency Funds** - The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is for student groups.

E. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less

2. Due From (To) Other Funds

Interfund receivables and payables arise from interfund transactions and are recorded in all affected funds in the period in which transactions are executed in the normal course of operations.

3. Inventories and Prepaid Items

In the General Fund, reported inventories are offset by a fund balance reserve indicating that they are unavailable as current expendable financial resources.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Data

The Board of Trustees adopts an “appropriated budget” for the General Fund, Debt Service Fund and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit E-1 and the other two reports are in Exhibit G-4 and G-5.

The following procedures were followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to June 19, the District prepares a budget for the next succeeding fiscal period beginning July 1. The operating budget includes proposed expenditures and the means of financing them.

NOTE 3 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (continued)

A. Budgetary Data (continued)

2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. The budget was properly amended throughout the year by the Board of Trustees.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end. A reconciliation of fund balances for both appropriated budget and nonappropriated budget special revenue funds is as follows:

G. Defeasance of Debt (continued)

As a result of the advance refunding, the District decreased its total debt service requirements by \$2,121,214, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$1,426,818. The District issued the refunding bonds in order to restructure the bond debt and to enable the District to issue additional bonds for the purpose of capital improvements with an approximate annual level debt service.

In prior years, the District defeased previously issued and outstanding bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. On June 30, 2009, \$70,470,000 of the bonds outstanding (including those defeased in 2009) are considered defeased.

NOTE 5 OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal 2009, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

B. Litigation and Contingencies

The District is currently involved in various litigation. Management believes the District will prevail in each matter.

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at June 30, 2009, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

E. Health Care Coverage

For the year ended June 30, 2009, employees of the District were covered by the TRS active care insurance plan (the plan). The District paid premiums of \$250, per month per employee to the plan and employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to licensed insurer. The plan was authorized by Article 3.51-2., Texas Insurance Code, and was documented by contractual agreement.

Latest financial statements for the Blue Cross Blue Shield are available for the year ended December 31, 2008, are filed with the Texas State Board of Insurance, Austin, Texas and are public records.

F. Pension Plan Obligations

1. Teacher Retirement System of Texas

Plan Description - The District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading.

Funding Policy - Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system; (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the

G. Retiree Health Plan (continued)

Funding Policy - Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2007, 2008, and 2009. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For the years ended August 31, 2007, 2008, and 2009, the State's contributions to TRS-Care were \$943,547, \$1,078,379, and \$1,205,268, respectively, the active member contributions were \$613,306, \$700,953, and \$783,431, respectively, and the school district's contributions were \$518,951, \$593,094, and \$662,895, respectively, which equaled the required contributions each year. In addition to the pension plan and TRS-Care on behalf, the District is allocated a portion of the Medicare Part D retiree drug subsidy the TRS-Care receives. The amount allocated on behalf for the year ended June 30, 2009 is estimated by TRS at \$269,232.

H. Workers' Compensation Insurance

During the year ended June 30, 2009, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's workers' compensation program is authorized by Chapter 504, Texas Labor Code. All districts participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The District participates in the Fund's reimbursable aggregate deductible program. As such, the District is responsible for a certain amount of claims liability as outlined on the District's Contribution and Coverage Summary document. After the District's deductible has been met, the Fund is responsible for additional claims.

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$1.5 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully fund those reserves. As of August 31, 2008, the Fund carries a discounted reserve of \$76,073,881 for future development on reported claims and claims that have been incurred but not yet reported. For the year en
