

# McKinney ISD Uses of Funds Plan

McKinney ISD (MISD) applied for the Elementary and Secondary School Emergency Relief Fund (ESSER III) grant from the Texas Education Agency (TEA) based on funds received from the American Rescue Plan (ARP). The total Notice of Grant Award (NOGA) is \$16,524,108. MISD will utilize approximately \$5,500,000 annually beginning FY 2021-22 through FY 2023-24.

MISD's use of funds philosophy is centered on the belief that appropriate class sizes, continuity of programs and outstanding teaching staff are the keys to student success. As we begin a Covid-19 recovery phase, irrespective of the temporary Covid-19 enrollment decline, MISD believes that addressing learning loss through continuing to employ staff, which maintains appropriate class sizes and continuity of programs, will be the best use of the ESSER III funds. Additionally, employment of staff allows for continuation of learning loss remediation through credit recovery, summer school and tutoring.

Primary focus will include Counselors, Avid Instructors, Secondary Instructional Coaches, Campus Liaisons and Summer School staff. Avid Instructors, Secondary Instructional Coaches and Summer School staff are directly used in learning loss mitigation. All of these expenditures are categorized as other

# Plan de Usos de Fondos de McKinney ISD

McKinney ISD (MISD) solicitó la subvención del Fondo de Ayuda de Emergencia para Escuelas Primarias y Secundarias (ESSER III) de la Agencia de Educación de Texas (TEA) en base a los fondos recibidos del Plan de Rescate Americano (ARP). El Aviso total de concesión de subvención (NOGA) es de \$16,524,108. MISD utilizará aproximadamente \$5,500,000 anualmente a partir del año fiscal 2021-22 hasta el año fiscal 2023-24.

La filosofía de uso de fondos de MISD se centra en la creencia de que el tamaño adecuado de las clases, la continuidad de los programas y un personal docente sobresaliente son las claves para el éxito de los estudiantes. A medida que comenzamos una fase de recuperación de Covid-19, independientemente de la disminución temporal de la inscripción de Covid-19, MDf prp-0.004 (e )-171 (a l)Td(19)-17(,)-D
